With the granite cutting shed there will be a blacksmith shop adequate for the accommodation of all lesses of sections of the building, a traveling crane, compressed air plant, derricks, and all requirements to make a complete stonecutting establishment. This will mean a material increase in population and future prosperity for Westerly.

LAW AGAINST FLIRTING. New Yorker Says That the Practice Causes Most of Divorces.

New York, Dec. 11.—Prison for flirts after September, 1912, is the remedy for diverce suggested by Assemblyman Richard F. Hearn, who is a guest at the Hotel Bresim. Mr. Hearn said he would introduce a bill to this effect at the opening of the legislature in January.

"I've been making a little investigation of this flirting business," said Mr. Hearn. "I've found that most of the divorces in this country can be attributed to it. Flirting has brought more unhappiness than any custom that has ever been inflicted upon the United States,

"Take my word for it, you'll find that nearly 20 per cent, of the people who have been separated by the courts began their relations by an intendedly innocent wink.

"I stood on Broadway last night and saw more flirting than I have seen since I was on the Pike at the St. Louis exposition.

"I intend my legislation to apply equally guilty."

For one week we have had an augmented sales force, that proper attention might be accorded you.

We have, in fact, done everything in our power that the Christmas rush might be spread over as much time as possible; that the time given over to Christmas shopping might be indeed a time of "Peace on Earth, Good Will toward Men."

TATe wish to thank those of you who have responded to the appeal for early shopping, and trust that you have been repaid by having had first choice from the stock before it was handled over.
